```

  SWFT Social Media Agent
  simple. smart. swft.

```

Commands:

```

node index.js generate
  Auto-finds trending topics and generates this week's posts
  for Instagram, Facebook, and LinkedIn

node index.js generate "your topic"
  Generate posts about a specific topic

node index.js reply <platform> "<comment>" "<post context>"
  Generate a reply to a comment

```

Examples:

```

node index.js generate
node index.js generate "missed calls cost contractors thousands"
node index.js reply instagram "Does this work for small HVAC companies?" "SWFT
  `);
}
}

```

```
}
```

```
main().catch(console.error);
